Gentlemen:

My employer recently asked me to mount some old coins for him, as a permanent record, and not being very familiar with this type of work, I am wondering if you could give me some suggestions.

The collection is not very large, and consists of coins ranging in size from, I should say, 1" to nearly 2". The suggestion has been made to trace these coins, and mount the tracings. Do you think this the most desirable way? If so, how would you suggest tracing, and particularly the best kind of paper to use for this work. The history of the coin would be given underneath the tracing, if this method were used; or under the coin, if that type were used.

I would appreciate any information you could give me relative to this matter.

Yours very truly,

(Miss) Beatrice Allen
